

Accessories and Replacement Parts

Protimeter Moisture Meters

	Part NO.	Description	MMS2	Hygro-Master 2	Survey-master	Mini	Timber-master	Application
	BLD0500	20 pack of pin needles	✓		✓	✓	✓	Replacement pin needles that fit the top of the meter
	BLD0501	Ferrule nuts 2 pack	✓		✓	✓	✓	Retaining nut for the pins on the top of the meter.
	BLD4755-5	Mini Hygrostick pack of 5 with traceable cert	✓	✓				Sensor specifically designed for concrete floor moisture measurement
	BLD4755-EX	Extractor Tool	✓	✓				Required to remove mini Hygrosticks from concrete floor sleeves
	BLD5020	9" Deep Wall Probes	✓		✓	✓	✓	Insulated for measurement at depth in wall cavities and floors
	BLD5055	Hammer Electrode	✓		✓	✓	✓	Measure moisture at varying depths in hard and softwoods
	BLD5059	Temperature sensor for Timbermaster					✓	When used in conjunction with the Timbermaster readings are automatically compensated for temperature
	BLD5060	Heavy duty moisture probe	✓		✓	✓	✓	Plug in moisture probe

	Part NO.	Description	MMS2	Hygro-Master 2	Survey-master	Mini	Timber-master	Application
	BLD5070	EIFS Probe	✓		✓	✓	✓	Deep wall probes mounted on a handle
	BLD5086	Calcheck device (for pin-type meter range)	✓		✓	✓	✓	Check the accuracy of all Protimeter pin meters
	BLD05296	10 pack of needles for BLD5055	✓		✓	✓	✓	Spare Needles for the heavy duty Hammer Electrode
	BLD5806	Extension lead Mini Hygrostick \$ 28	✓	✓				Extension lead for reading mini Hygrosticks in flooring applications
	BLD5808	Plug in surface temperature probe	✓	✓				High accuracy measurement of surfaces for dew point measurement
	POL4750	Hygrostick	✓	✓				Hygrostick for high humidity applications
	POL8750	Quikstick Sensor	✓	✓				Standard QuikStick sensor for general humidity and temperature measurement
	POL8751	Short Quikstick Sensor	✓	✓				Short QuikStick sensor for general humidity and temperature measurement

Amphenol
Advanced Sensors

It's the moisture you can't see that matters most...

PROTIMETER

...that's why the right moisture meter makes all the difference.

Contact Your Protimeter Distributor

Protimeter Service and Repair and Warranty

All Protimeter instruments carry a two year warranty against manufacturing faults. If you need to send your meter back for service it can be done simply by going to <https://www.protimeter.com/rma> and completing the form. Turnaround is normally two working days from the meter reaching our service center.

Protimeter MMS2®

BLD8800

The new ground-breaking MMS2 meter incorporates 4 in 1 technology dual-function moisture meter, surface IR temperature measurement and a fully functions hygrometer for building materials.

- Non-invasive moisture detection up to 3/4" below the surface; not adversely affected by surface moisture
- Pin moisture measurement with built in probes and optional plug in probes
- Removable and replaceable temp/% rh probe
- Fast responding plug-in humidity and temperature sensor; calculates grains per pound and dew point and other psychrometric functions
- Surface IR remote temperature measurement with condensation calculation and laser pointer
- Data Storage
 - Store up to 8,000 results with date and time stamp from all instrument functions with the push of a button. Store 6100 results with automatic logging.
- Two year warranty

Protimeter MMS2® Flooring Kit

BLD8800-FL

The Protimeter MMS2 Flooring kit allows flooring inspectors to make moisture measurements in concrete floor slabs using the relative humidity in situ probe method. The In-situ humidity test is being adopted worldwide and is considered the most accurate way for contractors and inspectors to ensure that the appropriate levels of moisture is present in the concrete slab prior to installing a floor covering. Moisture levels in floor slabs are critical to understand as excessive can lead to catastrophic and expensive floor failures. Global standards are in place such as ASTM F2170.

MMS2 Flooring Kit Components:

- 20 Adjustable Humidity Sleeves
- Carbide-Tipped Spiral Masonry 1/3" Drill Bit and Drill Stop
- Wire Cleaning Brush
- 5 Protimeter Mini Hygrostick Probes
- Mini Hygrostick Insertion and Extraction Tool
- Mini Hygrostick Extension Lead
- Slats Calibration Test Bottle and Adapter
- Data Cable and Software
- Rugged Carrying Case

Protimeter HygroMaster® 2

BLD7751

Fast-responding full function thermo-hygrometer with psychrometric calculations.

- Infrared non-contact surface temperature
- Data logging
- Replaceable humidity and Temperature Sensor
- Simple to use interface with color display
- Optional plug-in surface temperature sensor (BLD5808)
- Two year warranty

Applications: Measure the atmospheric conditions within a building environment as well as measure the output from dehumidifiers; automatically calculate psychrometric conditions.

Protimeter Technician's Kit®

BLD5905

Flexibility in a hard, durable, carrying case.

- Foam insert case to protect meters and accessories
- Included HygroMaster 2 (POL7750)
- Protimeter Surveymaster (BLD5365). Remote pin probe, deep wall probes and calibration check device
- Heavy duty hammer electrode (BLD5055)
- Two year warranty on Protimeter HygroMaster 2 and Surveymaster

Protimeter Timbermaster

BLD5605

The Protimeter Timbermaster is a simple to use wood moisture meter specifically designed for the timber industry. It is ideal for a range of quality control applications associated with the production, trading and use of wood products.

- 150 calibration corrections for different types of wood
- Optional plug in temperature probe
- Automatic temperature compensation

Protimeter Surveymaster®

BLD5365

The world's original and best selling dual function moisture meter for building materials.

- Built-in pin probes
- Non-invasive moisture detection up to 3/4" below the surface
- Not adversely affected by the presence of surface moisture
- Simple to use and read with two button operation
- Complete with nylon carry pouch, remote pin probe, deep wall probes
- Calibration check device included to quickly check functionality
- Two year warranty
- LED and LCD Display

Applications: Measure moisture in drywall, wood, and other building materials; search for moisture behind tile and vinyl floors.

Protimeter Restoration Kit®

BLD8800-C-R

Everything you need in a hard, durable carrying case.

- Foam insert hardcase to protect meter and accessories
- Included MMS2, remote pin probe, deep wall probes and calibration check device, logging software and cable, QuikStick sensor and extension lead
- Heavy duty hammer electrode (BLD5055)
- Two year warranty on MMS

Applications: Measure moisture in a wide range of materials, including drywall and wood.

See more at: www.MMS2meter.com

Protimeter Aquant®

BLD5765

Rapid moisture detection with no pins.

- Non-invasive moisture detection up to 3/4" below the surface
- Not adversely affected by surface moisture
- Two year warranty
- LED and LCD Display

Protimeter Digital Mini

Digital Pin-Type Moisture Meter

BLD5702

The Protimeter Digital Mini is a simple pin type moisture meter with a digital display and color arc LED color coded LED display.

- Built in pin probes
- Side port for accessories
- Mini moisture probe and carry case
- Calibration check device and instructions
- Two year warranty

Applications: Measure moisture in a wide range of materials, including drywall and wood.

Protimeter Mini®

BLD2000

Simple, low-cost, and robust pin meter.

- Built-in pin probes
- Easy-to-read color coded LED display
- Simple to use and read with two button operation
- Complete with nylon carry pouch, remote pin probe
- Calibration check device included to check functionality
- Two year warranty
- Optional extra hammer probe (BLD5055)

Applications: Measure moisture in a wide range of materials, including drywall and wood.

Protimeter Dual Meter Kits

3 new convenient dual meter kits in a thermoformed protective case.

BLD7714-SM

- Hygromaster 2 and Surveymaster
- Quikstick humidity sensor, data logging cable, plug in deep wall probes and heavy duty moisture probe
- Thermoformed protective case

BLD7714-DM

- Hygromaster 2 and Digital Mini meters
- Quikstick humidity sensor, data logging cable, plug in deep wall probes and Mini moisture probe
- Thermoformed protective case

BLD7714-AQ

- Included Hygromaster 2 and Aquant meters
- Quikstick humidity sensor, data logging cable
- Thermoformed protective case
